

RESISTANCE TO ANTIBIOTICS IN PNEUMOCOCCUS SPECIES.

Please incorporate the element of originality Many such research articles and reviews including book chapters are published by different authors around the world. Poorly written, did not stick the guideline of representing scientific names. Language is poor. Background of the study is very short and very limited in understanding the importance of the study. The article is also very restricted to PNEUMOCOCCUS SPECIES only while we know that *Mycobacterium tuberculosis* is another species which developed multidrug resistance within few years and they continue to get resistance to all new class of drugs. Therefore, content wise a broader aspect to the article may improve the importance of the study.

The candidates are advised to maintain the following characteristics before the final submission:

- Novelty/Realistic
- Practical Feasibility
- Expected Outcome
