

DETECTING DEPRESSION IN COLLEGE STUDENTS USING MACHINE LEARNING

The idea is novel but approach has many flaws. What questions will be included and is the depressed person really write correct response. It requires bench marking as well which is not existing. The authors don't have any experience of the psychiatric diseases and needs to highlight more on technical aspect for correct direction towards constructive solutions.

The candidates are advised to maintain the following characteristics before the final submission:

- Novelty/Realistic
- Practical Feasibility
- Expected Outcome

Some important links to understand how to write a research paper/manuscript:
