

Review of prosthetics and exoskeleton and case study in India

Abstract has been well written, but minor improvements can be made. English can be improved and proper sections need to be made for different categories of prosthetic limbs. Also it would be better if the review involves international use of prosthetics as well. You can use the following links for reference –

The candidates are advised to maintain the following characteristics before the final submission:

- Novelty/Realistic
- Practical Feasibility
- Expected Outcome
