Selection of Cricket Players using Machine Learning

The application of ML in cricket selection makes is appreciable. However, the authors are taking only current form (past performance) into account which makes belittles the scope. It is recommended to take the pitch condition, necessary combinations (batting/bowling etc.) etc. into account for proposing the solution. Also, authors need to justify how can there be a debut of a player. The work must be supported by concrete results.

The candidates are advised to maintain the following characteristics before the final submission:
- Novelty/Realistic
- Practical Feasibility
- Expected Outcome
